We've found that many over time have been seduced in the past by slick sales letters of 'Forex marketers' who conned these folks into some

dreamy idea that Forex will solve all their life's problems, cure cancer, make them have super powers, fly, be adored by the masses, increase their s-x life, make them better looking, have 110% winning and make them a billion dollars without even logging in to look at their purchase... 7. **Can I Make a Million or More Dollars with Your Systems?** Potentially yes. We can't guarantee you anything. We can't guarantee you future performance- You know how that goes... but our systems are solid enough to give you the potential to methodically grow your account overtime.
